

HOW TO REHOME YOUR RETIRED RACING GREYHOUND

Share some key information to help us match your greyhound to their new home, the more quality information you share, the easier and quicker the process will be. Some things we need are:

- At least 3 good quality photographs – no muzzles, headshot & full body please. If your greyhound is good with kids and animals or likes lazing on the couch, show us!
- Complete a short profile on your greyhound – we have a form that will help.
- Visit our Facebook page or talk to us for tips.

Visit your Vet as soon as possible for pre-rehoming procedures including neutering/spaying, pet passport, vaccinations, flea/worm treatment.

RCÉ and IRGT will provide finance towards these costs

Your greyhound will remain at home with you until we've matched them with their new home.

Once your greyhound is ready to move to their new home you will carry them to an arranged collection point.

Contact the IRGT to start the rehoming journey
